

I teach a Year 4 class in Room 22. There are so many fun and exciting things to look forward to in Year Four in 2020. I enjoy learning about each of my students and helping support them in being the best that they can be. In my classroom I want to help my students create an inspiring place for us all to learn from one another.

During the holidays, I look forward to doing some of my favourite things: spending time going on fun adventures with my wonderful husband Kristian, reading, baking, catching up with my friends, lovely long walks at the beach and going to the gym.
